3. Discussion & Key Points

Topic 1: [Geolines and Poly-Directions Integration]

- **Summary:** [Been completed. Jordan has pushed working implementation]
- **Key Points:** [Andrew and Jordan devised solution for multi-TSP geolines and poly directions with working frontend now real (but ugly and missing key features)]

[Jordan showcased the application in action]

[Has straight line bug]

[Has old routes not clearing bug]

[Has number of routes bug – sometimes there are less routes than number of drivers]

[Has North America functioning in Autocomplete]

Topic 2: [Other Updates]

- **Key Points:** Tristan buried the API keys (security)

Tristan has fixed a bug in auth schema

Cam has improved Stripe Billing page and logic

Cam has fixed the non-clearing of old routes

Cam has made improvements to the credit deduction schema and integration

Cam has made improvement to saving routes to db feature and their credits relationship

- **Topic 3: [Next Steps]**

- **Summary:** Lots of work remaining and minimal time. A discussion about what needs to get done next and whose doing it.

- **Decisions Made:**

[1] – Saving Reloading Exporting to be implemented ASAP

[2] – Mexico added for full NA functioning

[3] – Map re-centered to ~North Dakota (looks like its in the middle of NA then)

[4] – Consumer on backend situation, Cole to look into multiple consumers

[5] – Credit System not consistent and needs to be made consistent

[6] – Landing Page filled in with more detail

5. Additional Notes / Other Business

- Be prepared to finish this thing in coming week, we may have to snip things if they aren't done by then
- Need to be documenting and testing heavily in a week, presentation practice will require all members to meet in person for once
