

Meeting Minutes

[REROUTE – Group 16]

Meeting Minutes

Date: [03/18/2025]

Time: [10:00 a.m.]

Location: [Brock University Library, 5th floor Group Study or Virtual Platform, Discord]

Facilitator/Chairperson: [Travis]

Note Taker: [Andrew Pauls]

1. Attendance

Present:

- [Cole Corbett - Developer]
- [Tristan Arana Charlebois – Developer]
- [Jordan Wallace - Developer]
- [Turner Kassie – Scrum Master]
- [Andrew Pauls – Product Owner]

Absent: Cam Carvalho, Jury Duty

2. Agenda Overview

(List key discussion topics in order of the agenda)

1. [Sprint Review]
 2. [Moving Forward/Sprint 6 Planning]
-

3. Discussion & Key Points

Topic 1: [Sprint Review]

- **Summary:** [Teammembers were given the opportunity to demo their work to the team.]
- **Work Demo'd:**

[Tristan]: Working saving and reloading of routes for single TSP routing. Credits working and auto-deducted. Logos changed on auth pages.

[Andrew]: New Landing Page with correct session management. Had amalgamated the 3 frontend branches (Tristan/Andrew/Jordan), pushed to main, and showcased the newest and best MVP available

[Jordan]: Directions working for single TSP

[Cole and Travis]: Showed bug fixes on Multi-TSP GA, showed inputs/output in standardized format, showed Graph Hopper loading changes, handling of boolean flags (avoid tolls, avoid highways, etc)

Topic 2: [Moving Forward/Sprint 6 Planning]

- **Summary:** [With Sprint 5 drawing to a close, Cam now unable to give as much time to the group due to Jury Duty, and the product being nowhere close to an MVP, we need to change the way we're doing things. A discussion about how to actually get this thing done.]
- **Decisions Made:** [1] – Backend is basically done, Turner to start planning Progress Report 2. Cole to assist with middleware and testing

[2] – Cam to implement middleware for Multi-TSP when he has time, ASAP

[3] – Andrew and Jordan to situate the frontend POST function and GUI to facilitate the passing of route data how multi-TSP GA requires it

[4] – Tristan to rebuild the saving/reloading of routes features to facilitate Multi-TSP routes

[5] – No longer going to be abiding with formal Sprints. It's now about completing tasks, especially the frontend/middleware tasks, as fast as possible. If group members can help in any way to move the frontend/middleware along, they are to do so.

5. Additional Notes / Other Business

- P1 – Cam does not have a lot of time at the moment and is away from his server. May affect his ease of implementing middleware
- Cam to miss all remaining meetings due to Jury Duty

6. Next Meeting Details

 **Date & Time:** [March 21, 2025]

 **Location:** [Brock University Library Study Rooms ST236]

 **Key Topics for Next Meeting:**

1. [Frontend]
2. [Middleware]
3. [Moving Forward]

 **Meeting Adjourned at:** [11:30]

 **Minutes Prepared By:** [Andrew Pauls]
